

Mike & Marilyn PLUMB

We would like to take this time to welcome you to our PlumbLine GNLD Team. We are so excited to be working with you to realize your dreams and goals. Here you will find a very simple system that if followed, repeated and taught to your team, will provide you with a strong residual income. So, let's get started!

STEPS TO SUCCESS

Many people go to college for 4 years – consider this your “GNLD U” for business success!

CONTACTS

- Decide on an organizational system you want to use. Some possible suggestions might be “**Day Timer Planner**”. If you want to use a computer system the “**ACT**” program is very good. You should start simple and transition as the need arises. Record all important events, commitments, daily goals in your system. “**The fortune is in the follow up**” is a true saying. You can't follow up unless you are organized and disciplined.
- Pick 5 people** from your name list to contact in the coming week about business or product.
- Call or do a “3-Way” with Upline Sponsor**
It's recommended that it be a 3-Way to gain experience in presenting and answering questions. You will learn how to recruit with our team prospecting website and be supported with someone upline to you. As you gain experience and sign up distributors of your own you will in turn learn how to do **3-way** calls with your down line. See the link “**Recruiting Procedures**” to get an over view of the process.
- Add** names to your list
 - You will do that by people you meet as you are out and about doing everyday activities
 - Go through cell phone, Facebook, etc.
 - Write 2 good qualities about each person

Commit to some activity relating to your business every day and to making phone calls. Your success lies in doing this!
